On 6 June 2024 the Supreme Court ruled that the calculation of box 3 income on the basis of imputed returns is still in contravention of European law. It held that if the actual return on box 3 assets is lower than the imputed box 3 return, the lower actual return must be taken as a basis. Within this context it stated that, in addition to regular income, any realised and unrealised increases in value should also be included in the calculation of the actual return. The Supreme Court also ruled that the costs incurred are not deductible.

Even if the property is being rented out for a short period only, please therefore also provide copies of bank statements for the account(s) to which the rent received in 2024 was credited. Lastly, please also provide the WOZ value for the 2025 tax year (value reference date: 1 January 2024).

If the immovable property is being rented out, please therefore provide copies of bank statements for the account(s) to which the rent received in 2024 was credited. Lastly, please also provide the market value as at 1 January 2025.

Assets made available to a related person or company

If you make assets available to your own company or to a company of a related person, you must declare these assets and the result generated from them as results from other activities. This may include the renting out of a commercial property, warehouse or self-contained workspace, or a claim that you may have. Other situations are also conceivable, however. The rules relating to such transactions (the so-called TBS scheme (*terbeschikkingstellingsregeling*)) may also apply if you make assets available, under unusual conditions, within your family circle to a company of a family member.

Please therefore inform us of whether you have any (financial) ties with 'related companies'. If so, please provide us with information including:

- the name and address details or the name and place of business of the related company;
- an indication of the nature of the association (e.g. 'partner's company' or 'father's company');
- the value(s) of the assets made available as at 1 January 2024 and 31 December 2024;
- the most recent assessment under the Valuation of Immovable Property Act (WOZ) of any immovable property made available;
- the income and expenses.

If you are a spouse or registered partner of the related person, the prenuptial agreement is also important for purposes of your tax return. This also applies if your spouse or registered partner makes the asset available to a related person.

- An overview of the values as at 1 January 2024 and 31 December 2024.

The Supreme Court also ruled that the costs incurred are not deductible.

For other assets and liabilities please therefore provide copies of bank statements for the account(s) to which the income received in 2024 was credited and from which the interest paid in 2024 was debited.

Specific deductibles

Medical expenses

If you paid out substantial medical expenses in 2024 that were not covered by your insurance, you may be entitled to a deduction for medical expenses. Medical expenses include the non-reimbursed costs of doctors, hospitals, treatments prescribed by a doctor and medical devices. Under certain conditions, the costs of following a specific diet and transport costs are deductible.

The following are examples of costs that are **not** regarded as medical expenses: your health insurance premiums, personal contributions or excesses under the Healthcare Insurance Act (Zvw), expenses for care that are compulsorily insured under the Healthcare Insurance Act, funeral expenses, personal contributions under the Long-Term Care Act (WLZ) and Social Support Act (WMO), spectacles or contact lenses, laser eye surgery, mobility scooters, wheelchairs, adaptations to the home, certain in-vitro fertilisation treatments, crutches, walking frames, rollators, and expenses relating to mental healthcare or dyslexia support for minors.

Please note:

An income-dependent threshold applies to the deduction of medical expenses. For a single person with an aggregate income (total income from boxes 1, 2 and 3) of up to € 9,420 the threshold is € 163. In the case of incomes above € 9,420 up to € 50,034 it amounts to 1.65% of the aggregate income. For incomes exceeding € 50,034, the threshold is € 825 plus 5.75% of the aggregate income above € 50,034. If your expenses are lower than the applicable threshold, no deduction is possible. If you think you are entitled to a deduction, please provide a breakdown of all medical expenses. For tax partners the medical expenses and aggregate incomes are added together and adapted thresholds apply.

The donations must amount to more than € 60 in total. They must also exceed a threshold of 1% of your (joint) aggregate income (before any personal deductions are deducted), except in the case of a so-called periodic gift.

- Please enclose a breakdown of the amounts paid and proof of payments.

Please note:

In 2024 personal deductions can only be deducted at a maximum rate of 36.97%.

Other information

This questionnaire covers only the most common situations. You should inform us about any matters that are not included in this form, but that could be relevant to your tax return. Please contact us in the event of doubt. It is better to ask one question too many than file an incorrect return!

- You have a company or have started a business (e.g. in a self-employed capacity).
- You are a co-titleholder (*medegerechtigde*) in a company.
- You have received an inheritance or a gift or have made a gift yourself.

- You have placed assets in a segregated private fund (APV) or are an heir of someone who has done so.

Please note:

We will prepare your tax return as advantageously as possible for you. To do so, we require complete and accurate information. Please contact us if you have any doubts about what information is relevant.
